

Super Matte Panels by Gizir

Super Matte Panels are manufactured to meet internationally recognized quality standards and will suit any residential or commercial project where a ripple free, easy to maintain matte finish is desired.

The best quality panels you can find worldwide

Super Matte panels are manufactured by the application of matte foil to the refined and calibrated MDF.

The smooth and textured surface design creates a warm, cozy ambience. Utilizing the wide selection of matte colours available, you can bring your creativity to reality.

This product is a perfect fit for kitchens, bathrooms, living rooms, bedrooms, and hotel furniture.

The available edgebanding is exactly matched in colour and structure to the panel decors, as a finishing touch for the perfectly designed product.

Super Matte is the latest product release from Gizir. It is processed using a state of the art PUR line in a clean room environment. It is laid up on a refined and calibrated MDF core to ensure a smooth surface.

The “soft touch” is silky smooth. It gives the material a warm and velvety feeling. The muted colours convey an unobtrusive sense of space.

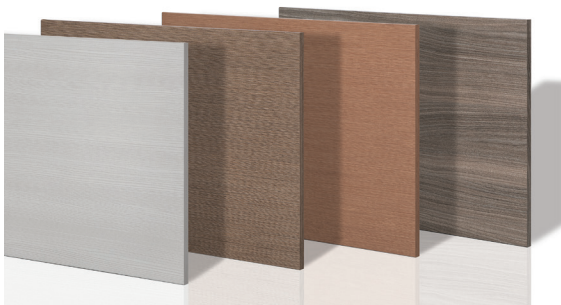

Super Matte by Gizir offers a very durable panel at one of the best price points in the Matte finish arena.
